

LAVENDER, WHITE and WHITE-COLORED-LIP HYBRIDSLAVENDERS

- #73-R LC GOVERNOR GORE X BLC DAWN ANGELA, MAGNIFICA - Medium to dark top quality flowers expected. Full, brilliant lips. Winter.
- #78-R LC PRINCESS PRUDENCE X LC PRINCESS ISHTAR - These two Black & Flory "Princesses" should foster fine, bright, dark offspring. Twice yearly.
- #422 LC SOUTH ESK X LC PRINCESS MARGARET - Free-flowering medium to dark heavy textured blooms. Should be better than most Geo. Baldwins and equal to the best. Twice or more yearly, as new leads mature.
- #81-R LC RUNAH X BLC MARION RYERSON - Large, well formed, brilliantly dark red-lavender blooms with huge, frilled, crimson lips. Winter or twice yearly.
- #492 LC RED OAK X BLC DAWN ANGELA - Medium to dark red-lavenders; crimson-purple lips. Late Winter through Spring.
- #730 C. ISORA NADALINI X BLC MARION RYERSON VAR REDLANDS - Dark, brilliant, red-lavenders for Winter or twice yearly.
- #737 LC GWEN SANDER X C. TRIANAE, EDGAR KNIGHT - "Lipstick" painted petal tips to match the brilliant, velvety, wine red of lip and throat was the feature of BOTH parents. Winter.
- #751 C. AMETHYSTOGLOSSA X C. HARRISONIANA X C. ENID - Bright pink, well-rounded blooms of very heavy substance in clusters. Spring.
- #754 C. LEDA VAR MIDNIGHT X BLC MARION RYERSON - Darkest, plum purple Leda crossed with rich red-lavender M. Ryerson with cerise lip. Winter or twice yearly.
- #755 C. PERCIVALIANA VAR PINK CLOUD X BLC MARION RYERSON - Light, azalea pink Blc's expected from this cross. Darker spot in lip; gold throat. Winter.
- #757 C. DANIEL RYERSON X BC HARTLAND - Free-flowering, heavy textured Winter Brassos of rich red-plum color expected. Should bloom twice yearly.

WHITE and WHITE-COLORED-LIP

- #70-R C. ELEANORE ALBA X C. NUTLEY ALBA - Twice yearly White-Colored-Lip hybrid of fine size and quality. Brilliant, dark purple lip; gold eyes. Autumn.
- #83-R C. BOB BETTS X C. SWAN - Bob Betts - a new White hybrid as good or better than Bowbells, which is one parent - crossed with fine Swan for Winter-Spring.
- #452 C. NELLIE BRANDS X C. BARBARA BILLINGSLEY - Free-flowering Winter White.
- #714 LC FLORENCE PICKARD X LC PRES. WILSON ALBA X LC HASSALLII ALBA - Large, free-flowering WHITE-COLORED-LIP blooms for Mid-Winter holiday season.
- #745 C. LUXURY X C. SKINNERI VAR SNOWDROP - White clusters for Spring.

EXTRA CHOICE YELLOW, RED AND KONO VANDA SANDERIANA HYBRIDS - QUANTITIES LIMITED!

YELLOW C., LC and BLC HYBRIDS

- #76-R C. MAGGIE RAPHAEL AUREA X BLC MALVERN - Yellows with red lips. Fall, Winter.
- #93-G BLC LUCY FARFAN X C. TRIANAE, SPRING MORN - Yellow to peach, some with lavender tint and blue-lavender lips. Winter.
- #137 C. IRIS (Bicolor X Dowiana aurea) - Heavy green-yellow with purple lips. Fall.
- #488 LC APRICOSA, AM X LC HENRIETTA P. DANE - Apricot to bronze; red-fuchsia lips. Autumn season.
- #708 LC PLYMOUTH X C. EDMOND DE MUNTER - Vigorous medium to bright yellow with rose to deep purple lips. Late Summer-Autumn.
- #760 LC CYNTHIA X LC NEW YORK X C. GRANULOSA, SCHOFIELDIANA - Heavy green-yellow to peach flushed blooms with brilliant lips. Spring.

RED SLC AND POTINARA HYBRIDS

- #676 BLC DAWN ANGELA VAR MAGNIFICA X POTINARA RED FRIAR - Rich, velvety, solid RED Potinara crossed on the best, dark Dawn Angela should hold the "hot color" expected from Potinaras. Winter.
- #704 C. SUPERBA X POTINARA ETHEL WARD - Small, heavy-textured "tailored" blooms of brilliant red-purple. Late Winter - Spring.
- #705 SLC RADIANS X LC ILLIONE X LC RUBENS - Should produce fine quality Winter Reds, larger and more compact of form than the above.

KONO'S VANDA SANDERIANA HYBRIDS

While most of my Vanda hybrids are listed elsewhere, the following, which came from Hawaii in flasks, are so choice and so scarce I decided to include them only in this group of high priced yellow, SLC and Potinara hybrids. (Read Pages Q and V.)

- #164-V VANDA SANDERIANA, KONO'S #3, FCC X V. SANDERIANA, KONO'S #15, AM - Some one discovered that when two fine Sanderianas were crossed, the resulting seedlings develop faster than when one prize-winner was "selfed". When Kono has a "kiki" from one of his prize winning Sanderianas, it sells for \$1,000 and UP. Need I say more?
- #168-V V. SANDERIANA, KONO'S #15, AM X V. SANDERIANA, KONO'S #7, FCC - I'm not sure why, but this seems to be the sturdier of the two crosses. Probably because #15 carried the pod. The offspring will not be identical, but both should produce top quality Sanderianas in the prize winning class.
- #172-V V. ROTHSCHILDIANA (V. Sanderiana, Kono's #7, FCC X V. Coerulea, India) - If you've ever seen any of the saucer-size Royal Blue Rothschildianas Kono has displayed in the various Orchid Shows, you need no sales talk for investing in this!

Single seedling from 1955 Page 5.....\$3.50 (prepaid in U.S.)
 3 seedlings " " " " (Your choice).....\$10.00 " " "

LIMIT: (Three seedlings per customer of Kono V. Sanderiana crosses)
 10 seedlings (Your choice, except for limit mentioned above \$28.00 (Charges coll.)
 OR, one each of the above (All 12 seedlings).....\$32.00 " "
